

Data Sheet CODESYS Memory Tools

With the plug-in CODESYS Memory Tools it is possible to display and check the memory of an application.

Product description

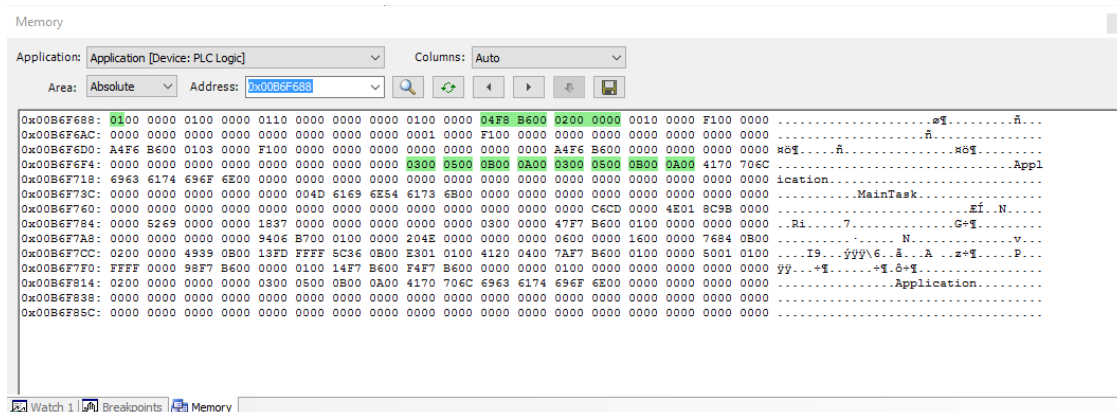

Licensing:

No license is required.

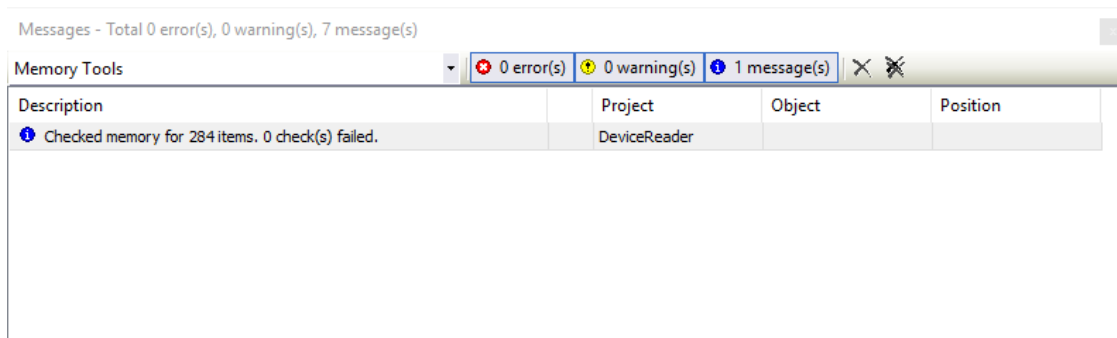

The CODESYS Memory Tools provide features for displaying the PLC memory mapping for an application in CODESYS, as well as for CODESYS-defined consistency checks of the memory.

The plug-in provides the following functions: - Display and editing of active application memory - Save memory content to binary file - Memory check of active application and display of the results in the message view - Limitation of the check by means of the 'memory_check' attribute
