System requirements and restrictions

Engineering	CODESYS Development System V3.5.20.10 or higher
Runtime	CODESYS Virtual Control SL V4.12.0.0 or higher
Supported Platforms	Debian Linux
Additional Requirements	
Restrictions	None
Licensing	

DEVICE

Single device license: The license can be used on the target device/PLC on which the CODESYS runtime system is installed.

Licenses are activated on a software-based license container (soft container), which is permanently connected to the controller. Alternatively, the license can be stored on a CODESYS Key (USB dongle). By replugging the CODESYS Key, the license can be used on any other controller.

Note: Technical specifications are subject to change. Errors and omissions excepted. The content of the current online version of this document applies.
