

## Upgrade Standard S

Upgrade of an already purchased application-based license (Base License) to the application-based license **Standard S**. The costs of the already purchased license (Base License) are fully credited.

### Product description

This product can be used to upgrade the application-based license installed on the system to the **Standard S** application-based license.

### Application-based license Standard S

A description of the application-based license Standard S can be found here:

<https://store.codesys.com/en/codesys-control-standard-s-bundle.html>

### Installation

The upgrade license can be installed on the system as usual via the CODESYS License Manager if the selected "Base License" is already installed on the system.
